Robert Block is the current Chair of the American Academy of Pediatrics Committee on Child Abuse and Neglect. Dr. Block is Professor and Daniel C. Plunket Chair of Pediatrics at the University of Oklahoma College of Medicine-Tulsa. Dr. Block is serving in his 16th year as the Chief Child Abuse Examiner for the State of Oklahoma. He has been active recently in the successful petition to have Child Abuse Pediatrics become a certified subspecialty by the American Board of Pediatrics. He frequently reviews cases and provides testimony in child abuse cases.

Susan F. Brinkley has taught in the field of criminal justice for nearly 20 years, with areas of expertise including justice ethics, correctional law, the death penalty, research methods, and comparative criminal justice systems. In addition to regular college classes, Dr. Brinkley also does study-abroad courses for undergraduate college students as well as law students. These classes involve both in-class studies and travel to western European countries. Her research interests are in the areas of corrections and CCTV technology and privacy. The CCTV research has been conducted in the United States as well as in European countries and has resulted in publications and numerous presentations at national and international conferences. Dr. Brinkley is also a licensed private investigator, specializing in criminal defense work. She has a Ph.D. in Criminal Justice from Sam Houston State University.

Michael R. Bromwich is a litigation partner resident in Fried Frank's Washington, D.C., and New York offices, where he heads the internal investigations, compliance, and monitoring practice group. He concentrates on internal investigations for private companies and other organizations, providing oversight services in connection with litigation and government enforcement actions and representing institutions and individuals in white-collar criminal and regulatory matters. Since joining the firm in 1999, Mr. Bromwich has conducted major internal investigations for public and private companies in the financial, energy, pharmaceutical, and public accounting industries, among others. Mr. Bromwich has also represented audit committees and special committees. The City of Houston, Texas, for example, selected him to serve as the Independent Investigator for the Houston Police Department Crime Lab and Property Room. He also was chosen as Independent Monitor by the U.S. Department of Justice and the District of Columbia for DC's Metropolitan Police Department, focusing on use of force, civil rights integrity, internal misconduct, and training issues.

Previously, Mr. Bromwich served as Inspector General for the Justice Department. As Inspector General, he headed criminal and administrative investigations into allegations of corruption and misconduct and independent audits of DOJ's programs and operations. He was best known for investigating allegations of misconduct, defective procedures, and incompetence in the FBI Laboratory; the FBI's activities regarding Aldrich Ames; and the campaign finance investigation growing out of the 1996 Presidential election. During his tenure as Inspector General, Mr. Bromwich testified before Congress on about 20 occasions.

Before his appointment as Inspector General, Mr. Bromwich served as a federal prosecutor and was Associate Counsel in the Office of Independent Counsel for the Iran-Contra investigation. He was one of three courtroom lawyers for the government in the case of *United States v. Oliver L. North*. Mr. Bromwich has tried many lengthy and complex cases and argued numerous appellate matters before the Second Circuit. He also served as Deputy Chief and Chief of the Office's Narcotics Unit. In addition to his government service, Mr. Bromwich spent about seven years as a partner in the Washington, D.C., office of Mayer, Brown & Platt, where he specialized in white-collar criminal defense. He represented individual and corporate clients in state and federal administrative and judicial proceedings; conducted and supervised complex investigations on behalf of individual and corporate clients; and tried two cases to verdict, including acquittal of a defendant charged with export violations in a nationally noted case.

Mr. Bromwich is a frequent speaker and panelist on law enforcement, oversight, and criminal law issues. He has published many articles and other publications on complex investigations, law enforcement,

criminal justice, and oversight issues. His work appears in the *New York Times*, *Washington Post*, *Los Angeles Times*, *Boston Globe* and *Legal Times*. Since leaving government, he has appeared on nationally televised programs such as “Nightline” and “The News Hour with Jim Lehrer” over all the major networks. Mr. Bromwich is admitted to the bar in the District of Columbia and New York. He received his law degree from the Harvard Law School in 1980 and a Master's degree in Public Policy from Harvard's John F. Kennedy School of Government. He received his undergraduate degree, *summa cum laude*, from Harvard College in 1976.

Donna A. Bucella is Director of the Terrorist Screening Center (TSC), an agency supported by the U.S. Departments of Justice, Homeland Security, and State. Prior to her assignment to the TSC, she was the Southeast Area Director of Aviation Operations in the Transportation Security Administration in Washington, D.C., responsible for the daily operations at the commercial airports in the Southeast. A licensed member of the Florida and Virginia Bar Associations, Ms. Bucella has had an extensive career in public service. She began her legal career in 1984 in the United States Army Judge Advocate General's Corps where she was a Defense Counsel assigned to the Trial Defense Service at Fort Belvoir, Virginia. In 1987, she became an Assistant U.S. Attorney in the Southern District of Florida. Six years later, she was named Director of the Office of Legal Education, Department of Justice, and was responsible for training over 11,000 DOJ employees and Executive Branch attorneys annually. Ms. Bucella was named the Principal Deputy Director of the Executive Office for United States Attorneys in 1994; in this position, she was responsible for operating the 94 United States Attorneys offices, composed of over 10,000 employees and with an appropriation of over \$1 billion. She then served as interim U.S. Attorney for the Middle District of Florida, was one of the first prosecutors on the ground responsible for investigation and prosecution in the Oklahoma City bombing, became Director of the Executive Office for U.S. Attorneys, and was appointed U.S. Attorney for the Middle District of Florida. Prior to being appointed to her current position, Ms. Bucella was a Partner at the Law Firm of Steel Hector & Davis LLP, in Miami, Florida, where her areas of practice included corporate compliance and complex civil and criminal litigation.

George Cadavid heads the Internal Affairs Division in the Miami Police Department. He has served 28 years in law enforcement; his participation in homicide investigations began in 1980 when he was assigned to the Homicide Unit during the Cuban Mariel boatlift. He served as the Homicide Commander from 2000 to 2001. As Homicide Commander, he was instrumental in the release of Jerry Townsend, who had served 22 years in prison for several murders he confessed to in Miami and Broward Counties. Jerry Townsend's mental disability, his admiration for police, and his willingness to help, led to false confessions for murders he did not commit. Mr. Cadavid also assisted and cooperated with the U.S. Attorney's Office and the U.S. Department of Justice in reviewing statements given by several police officers involved in shootings that eventually led to the indictment of 13 Miami Police officers. In 2001, he was appointed to the rank of Commander and was assigned to the Patrol Field Operations Division; in 2003, he was appointed to the rank of Major and assigned as the second in command overseeing the entire Criminal Investigations Division consisting of approximately 200 investigators. Major Cadavid accepted his current assignment in August 2004. He is an active member of the International Association of Chiefs of Police and a graduate of the FBI National Academy and the Police Executive Research Forum's Senior Management Institute for Police.

Steven E. Clark is Associate Professor of Psychology at the University of California, Riverside, and Chair of the program in Law and Society. His research, funded by the National Science Foundation, is directed toward developing a unified theory of the psychology of eyewitness identification decisions and understanding the underlying psychological mechanisms that lead witnesses to misidentify innocent people.

W. Mark Dale is Director of the Northeast Regional Forensics Institute (NERFI) at the University at Albany, State University of New York. The Institute provides education in forensics biology, chemistry, and computer science; it is currently providing intense “DNA Academies” for newly hired DNA scientists. Before accepting the position at NERFI, Mr. Dale was Director of the New York State Police Laboratory System and the New York City Police Department Laboratory. He has served as President of the American Society of Crime Laboratory Directors and Chairman on the New York State Crime Laboratory Advisory Committee, and has been a member of the New York State Commission on Forensic Science.

Leonard Deutchman is General Counsel and Managing Partner of Core Discovery LLP, a firm with offices in McLean, Virginia, and Philadelphia, Pennsylvania, that specializes in digital forensics, corporate investigations, regulatory compliance, and electronic and digital discovery. He came to Core in June 2005 after 20 years as a prosecutor in the Philadelphia District Attorney’s Office, the last seven as Chief of the Economic Crime Unit. He expanded the Unit to the Economic & Cyber Crime Unit; the expansion entailed construction of a computer forensics laboratory and training over a dozen detectives and prosecutors. Mr. Deutchman has investigated and prosecuted virtually every kind of economic and computer crime, not only as an Assistant District Attorney but also as a Special Assistant U.S. Attorney for the Eastern District of Pennsylvania. He is a sought-after teacher of investigators of computer crime and fraud, having helped to design, as well as having taught, several courses for the National and Pennsylvania District Attorney’s Associations, IACIS, and others. He has also investigated and prosecuted numerous cases of trademark counterfeiting, particularly in the area of DVD and CD “piracy,” and has lectured on the subject as well. Along with Core Discovery’s Brian Wolfinger, he has created and teaches a Computer Forensics curriculum for Chestnut Hill College in Philadelphia. He has also authored dozens of pieces of legislation dealing with economic crime, computer crime, electronic surveillance and other areas, and routinely reviews and revises them on behalf of law enforcement before enactment. Mr. Deutchman is a graduate of Rutgers-Newark School of Law. Before attending law school, he graduated from the University of Pennsylvania and pursued his doctorate at the University of California, Berkeley.

Jennifer D. Eakin is a Supervisory Special Agent assigned to the National Center for the Analysis of Violent Crime (NCAVC) at the FBI Academy in Quantico, Virginia, since 1998. At the NCAVC, she consults with foreign and domestic police investigators to provide advice on behavioral issues arising from a wide variety of international, federal, state, and local criminal cases involving the sexual victimization of children. Agent Eakin entered on duty with the FBI in 1984 and held a variety of assignments in the field on criminal squads, including the Public Corruption Squad in Boston, Massachusetts, and the U.S. Attorney’s Violent Crimes Task Force in Memphis, Tennessee. For 14 years as a street agent in the field, she conducted investigations, in coordination with local and state law enforcement, into crimes involving kidnapping, robbery, murder, and extortion. Agent Eakin also served as the team leader for the FBI’s Evidence Response Team, organizing and conducting crime scene searches. During the last seven years in the field, she spent a significant amount of time addressing crimes against children as both an investigator and as the program coordinator. Prior to entering on duty with the FBI, Ms. Eakin taught in both secondary and adult education programs. While working on her Masters degree in Clinical Counseling, she worked in a rural mental health clinic, where she was involved in the clinical intervention and treatment of adolescents with a demonstrated history of violence.

Ronald Eisenberg supervises the Law Division of the Philadelphia District Attorney’s Office. The Law Division, with 60 attorneys, consists of the Appeals Unit, Post-Conviction Unit, Federal Litigation Unit, Civil Litigation Unit, and Legislation Unit. From 1986 through 1991, Mr. Eisenberg was the Chief of the Appeals Unit in Philadelphia. He has served as a prosecutor in the office since graduating from law school in 1981. In addition to his experience with the Philadelphia District Attorney’s Office, Mr. Eisenberg served on the Task Force on Death Penalty Litigation of the Third Circuit Court of Appeals and was an adjunct professor at Temple University School of Law, teaching legal writing and research. On behalf of the

National District Attorneys Association, Mr. Eisenberg has helped draft federal legislative proposals concerning *habeas corpus* reform and DNA testing. He is a past president and current board member of the Association of Government Attorneys in Capital Litigation, a national organization of capital prosecutors. He is also a member of the Pennsylvania Supreme Court's Criminal Rules Committee and the Advisory Committee for Pennsylvania's Suggested Standard Criminal Jury Instructions. Mr. Eisenberg received his Bachelor's degree from Haverford College in 1978 and his law degree from the University of Pennsylvania Law School in 1981.

Jules Epstein is Visiting Professor of Law at the Widener University School of Law (Delaware), where he teaches Evidence and Criminal Law classes. He is also adjunct faculty at the University of Pennsylvania Law School, where he teaches Evidence. He is a partner at Kairys, Rudovsky, Epstein & Messing, where he concentrates on state and federal criminal defense and federal civil rights litigation. Mr. Epstein has authored or revised numerous chapters on criminal law and practice for the Matthew Bender publishing company, including materials on the insanity defense, the defense and prosecution of forcible rape and child sexual assault cases, the defense of homicide cases, law and practice in identification cases, and the defense of narcotics cases. Mr. Epstein has taught for the National Institute of Trial Advocacy and at various Pennsylvania Bar Institute and Pennsylvania Association of Criminal Defense Lawyers seminars, particularly in the areas of capital case representation, the law and practice in identification cases, and the law governing interrogations and the admission of police-elicited statements. Mr. Epstein is the recipient of the 1999 Roscoe Pound Foundation Award (ATLA) for "Excellence in Teaching Trial Advocacy as an Adjunct Professor of Law."

Nola Tedesco Foulston is in her 14th year and fourth elected term as District Attorney in Kansas's largest local prosecutor's office (supervising a staff of 110 including 50 attorneys), a jurisdiction with close to 500,000 population, including Wichita, the state's largest city. She has recently been selected for membership in the jurisprudence section of the American Academy of Forensic Sciences, a professional society organized in 1948 that is devoted to the improvement of the administration and achievement of justice through the application of science to the processes of law. She participates in many important law enforcement and community-based organizations such as The Forensic Science Center Advisory Board, the Kansas County and District Attorneys Association, the Domestic Violence Coalition, and Governor Sebelius' 3-R Task Force established to engage in the Recodification, Rehabilitation and Restoration Project of the Kansas Criminal Code. Before her election to office, Mrs. Foulston and her husband, Steve Foulston, formed and operated their own law firm, Foulston and Foulston, specializing in mass tort litigation and medical malpractice cases.

Earlier in her career, Mrs. Foulston served as an assistant district attorney in Kansas's 18th Judicial District and as a member of one of the area's largest civil law firms, Foulston, Siefkin, Powers and Eberhardt, where she practiced corporate and employment law. She views the quality of life for citizens as a matter that mandates keenest attention by law enforcement and prosecution to engage in collaborative and pro-active initiatives to get to the root of crime problems. She has been committed to reducing crimes of violence against women and the youngest members of the community. In this regard, she is particularly known for her successful prosecution, all the way to the Supreme Court bench, of repeat child molester, Leroy Hendricks.

Mrs. Foulston has been an active member of the National District Attorneys Association for more than ten years and is a regular member of the faculty at the National College of District Attorneys and the National Advocacy Center. She has appeared frequently on national television, including "48 Hours" and "Court TV." Diagnosed with Multiple Sclerosis in 1998, she is also active in the local MS Association, serving on their Advisory Board and in other capacities. She has received numerous professional awards and commendations, such as the Kansas Attorney General's Crime Victim Service Award for Outstanding Prosecutor for Commitment to Crime Victims (2001), the Daughters of the American Revolution Award for Professional Excellence, and the Wichita Bar Association Attorney of Achievement Award for Professional Excellence.

Nola Foulston is a member of the Wichita Bar Association, Kansas Bar Association, and American Bar Association. She is admitted to practice in the State and Federal courts of Kansas and is also admitted to practice before the Supreme Court of the United States. She earned her Bachelor's degree in Speech Communication and English from Fort Hays State University, a place she said her father sent her to "engender the spirit of the Midwest in his children." She received the juris doctorate degree at the Washburn University School of Law in 1975.

Norman Gahn is currently a Milwaukee County Assistant District Attorney who has been involved in the prosecution of sexual assault cases for the past 14 years. He has been with the Milwaukee County District Attorney's Office since July of 1984, following his graduation from Marquette University Law School in Milwaukee. Prior to entering law school, he served as a Military Police Officer and Criminal Investigation Division Officer in the United States Army. Mr. Gahn has lectured around the country on the use of DNA evidence in the courtroom. He is a member of the DNA Legal Assistance Advisory Group of the American Prosecutors Research Institute. In 1998, Mr. Gahn was appointed by the U.S. Department of Justice to the National Commission on the Future of DNA Evidence. Also in 1998, the Federal Bureau of Investigation formally recognized him as a pioneer in DNA technology in the courtroom. He is a recipient of the Profiles in DNA Courage award presented by the National Institute of Justice and was presented with the Voices of Courage award in Criminal Justice by the Wisconsin Coalition Against Sexual Assault. Mr. Gahn is a recent recipient of a national award from the Foundation for Improvement of Justice in Atlanta, Georgia, for his role in promoting justice in America through the use of DNA evidence. He has a B.S. in Psychology from St. Louis University and a Master of Forensic Sciences Degree from George Washington University.

Paul C. Giannelli is the Albert J. Weatherhead III & Richard W. Weatherhead Professor of Law at Case Western Reserve University. Professor Giannelli has written extensively in the field of evidence and criminal procedure, especially on the topic of scientific evidence. He has authored or co-authored nine books and has published articles in the Columbia, Virginia, Cornell, Vanderbilt, Wisconsin, Ohio State, Hastings, Cardozo, Arizona State, and Case Western Reserve law reviews, as well as in the *Journal of Criminal Law & Criminology*, *Criminal Law Bulletin*, and the *American Criminal Law Review*. In addition, his work has appeared in interdisciplinary journals, such as the *International Journal of Clinical & Experimental Hypnosis*, the *New Biologist*, *Profiles in DNA*, the *Journal of Legal Medicine*, and the *Journal of Forensic Science*. Professor Giannelli's work has been cited in hundreds of court opinions and legal articles, including decisions of the U.S. Supreme Court: *Blakely v. Washington* (2004); *United States v. Scheffer* (1998); *Daubert v. Merrell Dow Pharmaceuticals, Inc.* (1993); *Hudson v. Palmer* (1984); and *Barefoot v. Estelle* (1983). He currently serves as Reporter for the American Bar Association Criminal Justice Standards on DNA Evidence and co-chair of the ABA Ad Hoc Committee on Innocence. He received his J.D. degree from the University of Virginia, where he served as Articles Editor of the *Virginia Law Review*. His other degrees include an LL.M. from the University of Virginia and an M.S. in Forensic Science from George Washington University.

Syndi L. Guido is the Director of the Pennsylvania State Police Policy Office. She is responsible for developing goals, objectives, and long-range strategic plans for the State Police and coordinating its policy initiatives, regulatory agenda, and legislative proposals with the Governor's Office and other state agencies. From 1995 through January 2003, Ms. Guido served as the Governor's Deputy General Counsel for Criminal Justice. In that capacity, she advised Governors Ridge and Schweiker on a wide range of legal issues and represented them, as well as other high-ranking state officials, in various complex, high profile civil actions. In addition, she supervised the legal departments of the Pennsylvania State Police, the Department of Corrections, the Board of Probation and Parole, and the Commission on Crime and Delinquency.

Ms. Guido served as counsel to the Board of Pardons, the Juvenile Judges Court Commission, and the Pennsylvania Justice Network. Ms. Guido designed and implemented the first computerized system for tracking the status of all Pennsylvania death sentences. She has served on the Third Circuit Court of Appeals

Task Force on the Management of Death Penalty Litigation, the United States Attorney General's Initiative on DNA Laboratory Backlogs, and the President's DNA Initiative on Advancing Justice Through DNA Technology. Ms. Guido is a former Senior Deputy Attorney General in the Criminal Division of the Pennsylvania Office of Attorney General; she was also a Senior Assistant District Attorney in Cumberland County. Ms. Guido serves on the adjunct faculty of the Pennsylvania State University Dickinson School of Law, and she previously served on the adjunct faculty of York College. She is a member of the Pennsylvania Supreme Court Committee on the Rules of Evidence and has lectured extensively on capital case procedures, appellate advocacy, trial strategy, evidence, criminal law and procedure, and investigative techniques. In 1987, Ms. Guido graduated *cum laude* from the Dickinson School of Law, where she was a member of the Law Review and Woolsack Honor Society.

Susan Haack is presently Cooper Senior Scholar in Arts and Sciences, Professor of Philosophy, and Professor of Law at the University of Miami. She is one of a tiny number of living philosophers included in *100 Philosophers: The Life and Work of the World's Greatest Thinkers* (2004). Dr. Haack's books include *Philosophy of Logics* (1978); *Evidence and Inquiry* (1993); *Deviant Logic, Fuzzy Logic* (1996); *Manifesto of a Passionate Moderate* (1998); and, most recently, *Defending Science - Within Reason* (2003). She has also published numerous articles on a wide range of topics and in a broad spectrum of journals and magazines, from *The Times Literary Supplement* to *Epidemiology* to *The Journal of Health Politics, Policy, and Law*. Her recent work includes a series of papers on drug-company funding of scientific research in universities, on science and law generally, and on *Daubert* and its progeny specifically; most recently, "Trial and Error: The Supreme Court's Philosophy of Science," published this year in *The American Journal of Public Health*.

Carol Henderson is Director of the National Clearinghouse for Science, Technology and the Law; a Visiting Professor at Stetson University College of Law; and a Professor of Law at the Shepard Broad Law Center, Nova Southeastern University in Fort Lauderdale, Florida. A recognized authority in Scientific Evidence, Criminal Law, and Ethics, she began her legal career as an Assistant U.S. Attorney in Washington, D.C. She also practiced corporate litigation in a national law firm. Professor Henderson has presented more than 150 lectures and workshops on the topics of scientific evidence, courtroom testimony, and professional responsibility to forensic scientists and attorneys worldwide. She served as Project Director for the *Resource Guide for Users of Science and Technology* (a NFSTC/NIJ Project). She has written three books, including *Scientific Evidence in Civil and Criminal Cases*, and over 50 articles on scientific evidence, law, and ethics. She is an editor of the *Encyclopedia of Forensic and Legal Medicine* (2005) and serves on the editorial boards of the *Journal of Forensic Sciences*, the *Journal of Clinical Forensic Medicine and Forensic Science*, and the *Medicine and Pathology Journal*. Professor Henderson has appeared in both the popular and professional media. In 1999, she received the American Academy of Forensic Sciences' Jurisprudence Section's Harold A. Feder Award and was selected by the American College of Legal Medicine to deliver the Cyril Wecht Distinguished Lecture in Legal Medicine. She is Secretary of the American Academy of Forensic Sciences and has served on their Board of Directors and as a past Chairman of the Academy's Jurisprudence Section. Professor Henderson received her J.D. degree from The National Law Center, George Washington University, in 1980.

Stephen E. Henderson is a Professor at Widener University School of Law in Pennsylvania and previously taught at the Chicago-Kent College of Law. Professor Henderson clerked for the Honorable Jerry E. Smith of the United States Court of Appeals for the Fifth Circuit. He practiced law with Vinson & Elkins and Fish & Richardson, concentrating on intellectual property, criminal law, and the intersections thereof. Henderson received his B.S. in Electrical Engineering (with highest honors) from the University of California at Davis, where he received the College of Engineering Medal for most outstanding graduating student. He received his J.D. from Yale Law School, where he co-founded the Yale Law and Technology Society and served as articles editor for the *Yale Journal on Regulation*.

Gregory E. Hoffman currently holds the position of Command Officer of the Chicago Police Department's Office of Information and Strategic Service. In this role, he is responsible for the technical management and administration of the police department's camera initiative known as Operation Disruption, which he has worked on since its inception in January 2003. Prior to accepting this position, Mr. Hoffman worked to help develop the police department's criminal surveillance vehicle that broadcasts remote video images from the field to the police department's command room and the Office of Emergency Management's Joint Operations Center. He spent two years as a sergeant in the Patrol Division, one year as a member of the Gang/Tactical Unit, and five years as patrol officer. Mr. Hoffman holds an M.P.A. from Loyola University of Chicago.

Elizabeth A. Jenkins is a U.S. Magistrate Judge with the U.S. District Court for the Middle District of Florida in Tampa, Florida. Appointed in 1985 and re-appointed to a third eight-year term in 2001, Judge Jenkins is a former President of the Federal Magistrate Judges Association, an organization of more than 500 members. She is a Master of the Bench and past President of the Justice William Glenn Terrell American Inn of Court. Earlier, she served as an Assistant U.S. Attorney in Florida for seven years. Judge Jenkins is a frequent participant in seminars relating to federal practice sponsored by the Florida Bar Association, American Bar Association, Hillsborough County Bar Association, Federal Bar Association, and the Federal Judicial Center, among other groups. In October 2001, she was appointed by Chief Justice William Rehnquist to the Judicial Conference Committee on International Judicial Relations (CIJR) for a three-year term. She is the first magistrate judge to serve on that committee and was reappointed to a second three-year term in 2004. The Committee's primary role is to serve as a resource for foreign judiciaries involved in judicial development. Currently, she serves as CIJR liaison judge for Latin America. Since being appointed to the CIJR, Judge Jenkins has worked with judges from Latin America, Eastern Europe, and Russia. Judge Jenkins is a member of the Florida Bar and the District of Columbia Bar. She obtained her undergraduate degree from Vanderbilt University and her law degree from the University of Florida.

Susan Hart Johns is Bureau Chief of Region I, Illinois State Police (ISP); Region I includes laboratories located in Chicago and Westchester (suburban Chicago). Ms. Johns began her work in the forensic sciences in 1976 as a drug analyst with the ISP. She has served the department as Chemistry Training and Applications Coordinator, Chemistry Research and Development Coordinator, and Laboratory Director of the Research and Development Laboratory. Active in the field of forensic science, Ms. Johns is involved in several professional societies: the American Society of Crime Laboratory Directors, where she currently serves as President; the American Academy of Forensic Scientists; the American Chemical Society; the FEPAC (Forensic Education Programs Accreditation Committee); the Forensic Specialties Accreditation Board; and the Midwestern Association of Forensic Sciences. She holds a B.S. in Chemistry from the University of Illinois and an M.A. in Chemistry from San Diego State University.

Erin Kenneally is a licensed attorney who consults, researches, publishes, and speaks on prevailing and forthcoming issues at the crossroads of information technology and the law. These include evidentiary, procedural, and policy implications related to digital forensics, information security, and privacy technology. She has lectured and helped coordinate training conferences for officers of the court, law enforcement, and industry professionals concerned with digital evidence and information forensics. Ms. Kenneally is a Cyber Forensics Analyst at the San Diego Supercomputer Center and CEO of Elchemy, Inc., a non-profit corporation that conducts applied research and development solutions at the intersection of science and technology, the law and policy. She liaises and holds leadership positions with the Computer and Technology Computer High Tech Task Force (CATCH) and the Global Privacy and Information Quality Working Group, and provides thought leadership to numerous private and government advisory committees and working groups engaged in information technology law issues. Ms. Kenneally holds Juris Doctorate and Master of Forensic Sciences degrees.

Michael L. Levy has served in the Department of Justice for 23 of the last 25 years. From 1980 through 1983, he was an Assistant U.S. Attorney in the U.S. Attorney's Office in Philadelphia, where he specialized in white-collar prosecution. From 1985 through 1989, he was a Special Attorney in the Philadelphia Strike Force of the Organized Crime Section. Since September 1990, Mr. Levy has been an Assistant U.S. Attorney in Philadelphia. In 1991, he was named Deputy Chief of the Criminal Division; in 1993, he was made First Assistant. April 2001, Mr. Levy was appointed to serve as the interim U.S. Attorney; with the appointment of a new U.S. Attorney in September 2001, Mr. Levy became Chief of Computer Crime. Mr. Levy began his career as an Assistant Defender with the Defender Association of Philadelphia. He has been in private practice as a sole practitioner and has worked for large and small law firms as well. He is a 1966 *cum laude* graduate of Brown University and a 1969 graduate of the University of Pennsylvania Law School.

Vahid Majidi is currently the Chemistry Division Leader at the Los Alamos National Laboratory (LANL). The Division is essential to LANL's national security and civilian programs. The five major focus areas for chemistry include nuclear weapons-related research, non/counter-proliferation and homeland security, nanoscale science and engineering, applied energy projects, and molecular environmental science. Prior to his current assignment, Dr. Majidi was the Chief Science Advisor for the U.S. Department of Justice. He was selected by the Deputy Attorney General to be the advocate for science and technology for law enforcement. Dr. Majidi was responsible for coordinating science and technology policy among the Department's component agencies and with state and local law enforcement entities. He also served as a Department liaison to the scientific community. Dr. Majidi was also the Group Leader for the Analytical Chemistry Groups (C-AAC) at Los Alamos. The Group's main objectives were to serve the laboratory in national security and the nuclear materials characterization arena. Research efforts were concentrated on development of new technologies for materials characterization, development of in-situ sensors, fiber-optic based analysis, and process analytical chemistry for the intelligence community. From 1989 to 1996, Dr. Majidi was a tenured associate professor at the University of Kentucky where he conducted research on laser-based techniques, gas phase chemistry, and solid substrates. He earned his B.S. in Chemistry from Eastern Michigan University and his Ph.D. from Wayne State University. After his graduate work, Dr. Majidi spent two years as a postdoctoral research fellow at the University of Texas in Austin.

Michael J. McTavish, a Corporal with the Pennsylvania State Police, is a native of Wilkes-Barre, Pennsylvania, and has served 13 years in that organization. His current assignment is Supervisor of the Bureau of Criminal Investigation Computer Crime Unit, where he directs and oversees five Area Computer Crime Task Force offices. Each task force office conducts proactive and reactive investigations where a computer has been utilized in the commission of a crime. Additionally, they conduct forensic examinations on digital evidence. Each area task force is comprised of a coordinator, three troopers, a computer crime analyst, and 12 to 18 local law enforcement investigators.

Prior to Corporal McTavish's appointment as a trooper for the Pennsylvania State Police, he served five years in the United States Marine Corps and worked as a Journeyman Lineman for the International Brotherhood of Electrical Workers. Corporal McTavish has received certifications from the Federal Bureau of Investigation in UNIX and Linux operating systems and administration, along with Computer Intrusion Investigation. He is trained in computer forensics and is certified as an Encase Certified Examiner and Certified Forensic Computer Examiner. Corporal McTavish is Class B wiretap certified with the Pennsylvania State Police and is an Adjunct Instructor at Pennsylvania State University. He received a degree in Computer Engineering from Luzerne College and is a certified Microsoft Certified System Engineer, Cisco Certified Network Professional, Cisco Certified Security Professional, Cisco Certified Internetwork Professional, and Certified Information Systems Security Professional.

Kenneth E. Melson has been the First Assistant U.S. Attorney for the Eastern District of Virginia since June 1986. He has served as the Acting U.S. Attorney three times, in 1991, 1993, and again in 2001. Before joining the U.S. Attorney's Office in 1983, he served as a Deputy Commonwealth's Attorney in Arlington County, Virginia. Mr. Melson is a board member of the American Association of Crime Laboratory Directors/Laboratory Accreditation Board, Past-President (2003) of the American Academy of Forensic Sciences, and is on the Editorial Board of the *Journal of Forensic Sciences*. He serves as a Professorial Lecturer in Law at the National Law Center - George Washington University in Washington, D.C. He is also a member of the Advisory Council of the National Clearinghouse for Science, Technology and the Law.

Steve Mills joined the *Chicago Tribune* as a reporter in 1994. For the past five years, he has written about the death penalty, miscarriages of justice, and other problems in the criminal justice system. With *Tribune* staff writer Ken Armstrong, he reported and wrote the November 1999 series, "The Failure of the Death Penalty in Illinois." They also wrote the June 2000 series, "State of Execution: The Death Penalty in Texas." Other investigative series to which he has contributed include "Executions in America" (December 2000), "Cops and Confessions" (December 2001), "The Legacy of Wrongful Convictions" (October 2003), and "Forensics Under the Microscope" (October 2004). Mr. Mills is a graduate of the University of California, Santa Barbara, and Northwestern University's Medill School of Journalism. Before joining the *Tribune*, he worked for five years at the Rochester (N.Y.) *Democrat and Chronicle*.

John S. Morgan is Assistant Director of the NIJ Office of Science and Technology. He manages the agency's science and technology portfolios and provides strategic science policy advice for the NIJ Director and the Department of Justice. He is Science Advisor to the Assistant Attorney General, Office of Justice Programs, and Program Director of the GLOBAL Justice Information Sharing Initiative. Before coming to NIJ, Dr. Morgan conducted research in detection and mitigation of weapons of mass destruction at the Johns Hopkins University Applied Physics Laboratory. He developed mass spectrometry systems, studied methods to protect aircraft, and developed building and infrastructure protection strategies. Dr. Morgan received a Ph.D. in Materials Science and Engineering from John Hopkins University in 1990 and a B.S. in Physics from Loyola College in Maryland in 1984.

Rebecca C. Morgan is the Boston Asset Management Faculty Chair in Elder Law and Director of the Center for Excellence in Elder Law at Stetson University College of Law. Professor Morgan teaches a variety of elder law and skills courses and oversees the Elder Consumer Protection Project, as well as the Elder Law concentration program for J.D. students. She is a successor co-author of Matthew Bender's *Tax, Estate, and Financial Planning for the Elderly* and its companion forms book, and a co-author of *Representing the Elderly in Florida*. She is a Past President of the National Academy of Elder Law Attorneys, Past President of the Board of Directors of the National Senior Citizens Law Center, a member of the academic advisory board for the Borchard Center for Law and Aging, a special advisor to the ABA Commission on Law and Aging, an academic fellow of the American College of Trusts & Estates Counsel, the reporter for the Uniform Guardianship and Protective Proceedings Act, on the Faculty of the National Judicial College, past chair of the American Association of Law Schools Section on Aging and the Law, and past chair of the Florida Bar Elder Law Section. She served on the Florida Attorney General's Task Force on Elder Abuse and the Legislative Guardianship Study Commission. Professor Morgan was the recipient of the 2003 Faculty Award on Professionalism from the Florida Supreme Court Commission on Professionalism. She received the National Academy of Elder Law Attorneys UnAward in November 2004 for her accomplishments in the field of elder law.

Laura Mosqueda is the Director of Geriatrics at the University of California, Irvine School of Medicine, where she is also a Professor of Family Medicine and the Ronald W. Reagan Endowed Chair in Geriatrics. Her special areas of interest include dementia, elder mistreatment, and disability. She has

published numerous articles on elder and vulnerable adult mistreatment and has created a medical response team to work with Adult Protective Services and the criminal justice system. Dr. Mosqueda established the nation's first elder abuse forensics center and recently received funding to launch an elder abuse training center in Orange County, California.

Frank E. Pawlowski is a 27-year veteran of the Pennsylvania State Police. In February 1993, he was appointed Director of the Bureau of Criminal Investigation, which oversees investigative and intelligence operations for the State Police. The investigative units under Major Pawlowski's command include statewide Organized Crime, Intelligence, Drug Law Enforcement, Auto Theft, and Computer Crime Task Forces, as well as Fugitive Apprehension Units, the Fire Marshal Section, and Criminal Investigation Assessment/Missing Persons and Pennsylvania Crime Stoppers Programs. Major Pawlowski earned a Bachelor of Science degree in Criminal Justice from West Chester State College. He is a 1999 graduate of the FBI National Academy.

Joseph L. Peterson recently joined the College of Criminal Justice at Sam Houston State University in Huntsville, Texas, where he will be helping to develop their expanding forensic science program. Previously, he directed the Forensic Sciences Foundation in Rockville, Maryland, and the Criminal Justice Center at John Jay College of Criminal Justice in New York. He also served on the staff of the National Institute of Justice in Washington, D.C. Most recently, he served as Professor of Criminal Justice for 26 years at the University of Illinois at Chicago before retiring in August 2005. Dr. Peterson's research and publications have monitored the evolution of forensic science over the past 30 years, documenting its growing potential as well as its shortcomings. His research has explored the uses and effects of scientific evidence at key decision points in the judicial process (arrest, charging, etc.) and found that forensic evidence has its major impact at the point of sentencing. He has examined the problems associated with the placement of forensic laboratories within law enforcement agencies, including chronic resource shortages, ethical dilemmas faced by scientists in maintaining their neutrality, and a reluctance by laboratories to embrace rigorous scientific standards. Dr. Peterson has also engaged in a number of proficiency testing studies of crime laboratories in which he assessed the ability of laboratories to correctly analyze various forms of physical evidence. Most recently, he has been funded by the U.S. Bureau of Justice Statistics to conduct the first census of forensic/crime laboratories in the United States, in which he enumerated these public installations and collected organizational, budget, staffing, workload, and performance indicators of the nation's forensic laboratories. Dr. Peterson received his Ph.D. in Criminology from the University of California at Berkeley in 1971, specializing in criminalistics/forensic science.

Douglas H. Posey is a board certified Forensic, Anatomic and Clinical Pathologist. He is also board certified in Blood Banking and Transfusion Medicine. Dr. Posey is an Associate Medical Examiner at the Georgia Bureau of Investigation in Decatur; a Forensic Pathology Consultant with National Forensic Science Consultants, LLC; and founder of The Autopsy Doctor, PLLC. He is also a Clinical Assistant Professor in the Departments of Pathology at the Baylor College of Medicine and at the University of Texas in Houston. Dr. Posey has served as Assistant Medical Examiner at the Joseph A. Jachimczyk Forensic Center in Houston, Texas; Chief Pathologist and Medical Laboratory Director at the Bolivar Medical Center, Cleveland, Mississippi; and Assistant Professor of Pathology at Howard University College of Medicine, Washington, D.C. and Meharry Medical College, Nashville, Tennessee. He has published and presented numerous articles related to forensic and general pathology. He is an active member of the American Academy of Forensic Sciences and a fellow of the College of American Pathologists; he is also a member of the editorial board of *Forensic Science, Medicine and Pathology*. Dr. Posey received his B.S. in Biology from Alcorn State University and his M.D. from Wayne State University.

Richard E. Powers is board certified in Psychiatry with added qualifications in Geriatric Psychiatry. He is also board certified as a Pathologist with additional training in Neuropathology and experience as a

Forensic Neuropathologist. Dr. Powers has extensive expertise in long-term care for older persons with dementia and for disabled persons with mental retardation. He presently serves as the Director of the Bureau of Geriatric Psychiatry for the Alabama Department of Mental Health and Mental Retardation as well as medical director for the mental retardation division. He has served as consultant to the Office of the Jefferson County Coroner and Medical Examiner and as a consultant to the Office of the Medical Examiner for Baltimore, Maryland. Dr. Powers actively practices as a Psychiatrist and as a Neuropathologist at the University of Alabama at Birmingham in the division of Neuropathology. He has won numerous teaching awards for his work with medical students and residents as well as multiple public service awards for care and advocacy on behalf of persons with dementia or mental retardation. Dr. Powers has contributed to over 40 scholarly publications or presentations and is actively conducting research on deficiencies in the monitoring of the long-term care through the medical examiner and the criminal justice systems. He conducts public education for health service providers, long-term care regulators, and healthcare professionals, providing over 7,000 contact hours per year of medical educational programming. His educational writings can be seen on the websites www.alzbrain.org and www.ddmed.org.

Mark Rasch is Senior Vice President and Chief Security Counsel for Solutionary. In this role, he brings to bear more than 20 years of legal experience specializing in technology law, privacy, and electronic security. He is the primary spokesperson for Solutionary for consumer and customer education and security strategies. Prior to joining Solutionary, Mr. Rasch served as the Vice President of Cyberlaw for Predictive Systems, advising and consulting with clients on computer crime and information security matters, including policy formation, threat assessment, computer forensics, and incident response. In this role, he also worked extensively with the law enforcement and intelligence communities to assess threats from hackers, insiders, and foreign governments to the security of networked computer systems. Prior to Predictive Systems' acquisition of Global Integrity, Mr. Rasch was the latter's Corporate Vice President. He oversaw the spinout and development of Global Integrity from SAIC, as a security-focused consulting firm. At SAIC, he directed Information Security Law and Policy and served on the President's Commission for Critical Infrastructure Protection.

Previously, Mr. Rasch practiced law with the Arent Fox Kinter Plotkin & Kahn and Bethel & Nicastro law firms in Washington D.C. He emphasized computer and technology law; intellectual property issues; white-collar crime; and fraud, seizure, and eavesdropping laws at these firms. Mr. Rasch also served over seven years at the U.S. Department of Justice, most notably as lead counsel for the United States in *United States v. Robert Tappan Morris*, an early example of Federal prosecution of virus attacks. He was lead- or co-counsel for several other successful, high profile prosecutions related to credit card, banking, and securities fraud. He remains an active speaker and author, with credits for appearing on ABC's "Nightline," PBS's "The MacNeil-Lehrer Report," NPR, CNN, WNBC's "New York Today," and CNBC. He testified before several major legislative committees and has taught in many area universities, such as George Washington University Graduate School of Engineering and The American University School of Justice, Law & Society. Mr. Rasch received a B.A. in Political Science from the State University of New York at Albany and a J.D. from the State University of New York at Buffalo School of Law.

Carl M. Selavka is a forensic scientist specializing in explosives, arson, and esoteric toxicology. As Director of the Massachusetts State Police (MSP) Crime Laboratory System, he is responsible for the full-service central lab in Sudbury and satellite crime labs in Agawam, Danvers, Plymouth, and North Sudbury, as well as the DNA Databank for the Commonwealth. Prior to joining the MSP in July 1998, Dr. Selavka spent two years as the Director of Forensic Services with the New York State Division of Criminal Justice Services, where he worked with the state's 25 public forensic science labs to help them achieve accreditation and was responsible for the state DNA Databank and Forensic Science Commission. He also worked for five years as a Director at National Medical Services in Willow Grove, Pennsylvania, and four years as an Operations Officer with the Army Forensic Toxicology Drug Testing Lab in Hawaii. He recently completed a nine-month stint as a Senior Program Manager at the National Institute of Justice (NIJ) Office of Science

and Technology. His research and publications have focused on esoteric toxicology, bomb and arson analysis, and laboratory leadership. Dr. Selavka received an M.S. and a Ph.D. in Forensic Chemistry from Northeastern University in Boston.

Adam Shostack is a technologist, startup veteran, and regular public speaker. He has published papers on security, privacy, economics, copyright, and trust. He joined Zero-Knowledge systems in 1999 to build and run the Evil Genius group of advanced technology experts, researching future privacy technologies, including privacy enhancing networks, credentials, and electronic cash. He joined Zero-Knowledge Systems from Netect Inc., a mass-market security software company where he served as Director of Technology. As leader of the core design team for Hackersshield, he introduced numerous innovations in security scanning.

Mr. Shostack sits on the Advisory Board of the Common Vulnerabilities and Exposures initiative, the Technical Advisory Board of Counterpane Internet Security, Inc, and the Privacy Enhancing Technologies Workshop steering committee. He has spoken before a wide variety of conferences and groups, including Interpol's working group on computer crime, the Blackhat Briefings, the Security Leadership Series, the HTCIA Cybercrime Summit, and a variety of academic workshops and conferences.

Christopher Slobogin, J.D., LL.M, occupies the Stephen C. O'Connell Chair at the University of Florida Fredric G. Levin College of Law. He has authored several articles on technological surveillance, served as the Reporter for the American Bar Association's Task Force on Standards Relating to Physical Surveillance, and is working on a book entitled *Virtual Searches: Government Use of Surveillance Technology and What to Do About It*, which is the subject of his talk.

Andrew W. Vail is an associate in Jenner & Block's Chicago office. He is a member of the firm's Litigation and Dispute Resolution Practice. Mr. Vail also works closely with senior partners at Jenner & Block on reforms to the criminal justice system. As part of reform efforts, Mr. Vail has testified before the District of Columbia City Council, worked with representatives of the Japanese government, and often spoken at national conferences. He has represented clients facing the death penalty, a non-partisan organization formed to protect voting rights, and other clients with legal advocacy issues such as eyewitness testimony disputes. Mr. Vail filed an *amicus* brief on eyewitness testimony on behalf of the Center on Wrongful Convictions at Northwestern University School of Law, which was accepted by the Seventh Circuit Court of Appeals.

Mr. Vail is an Advisory Board Member of the Center for Justice in Capital Cases at DePaul University School of Law. He is a member of the American Bar Association, Illinois State Bar Association, Chicago Bar Association, and Seventh Circuit Bar Association. During law school at the University of Illinois, he was selected to be the Stuart N. Greenberger Research Associate in Legal Ethics for the College of Law. In this position, he spent over a year working with Professor Lonnie Brown, focusing on racial discrimination in jury selection. Before beginning his career at Jenner & Block, Mr. Vail served one summer as a PILI Fellow, working with the Legal Assistance Foundation of Metropolitan Chicago. He earned a B.A. in History, with a concentration in Native American and Irish History, from the University of North Carolina at Chapel Hill and obtained his J.D. from the University of Illinois College of Law.

Richard Willing reports on crime and punishment topics, with an emphasis on forensics, for *USA Today*. His work has appeared in the *New York Times*, the *Washington Post* ("Style" section), *Sankei Shimbun* and the *Journal of U.S. Intelligence Studies*. He holds honors degrees from Yale College and the Ohio State University.

William E. Wynn is a Detective in the Major Crimes Division of the Philadelphia Police Department. He joined the Department in 1965, was promoted to Detective in 1972, and transferred to the Major Investigations Unit in 1979. Assigned to the Major Crimes Division since 1981, Detective Wynn is responsible for coordinating and conducting lineups in Philadelphia.

C.W. (Bill) Young is the Republican Congressman from Indian Shores, serving his 18th term in Congress as a representative of the Tenth Congressional District of Florida. He is the senior member of the Florida congressional delegation and the senior Republican in the House of Representatives.

A veteran of the Army National Guard, Congressman Young is nationally known for his expertise on defense and security issues. He currently serves as Chairman of the House Appropriations Subcommittee on Defense, a post he previously held from 1995-1998, and is a member of the Appropriations Subcommittee on Military Quality of Life and Veterans Affairs. From 1999-2005, Congressman Young served as Chairman of the House Appropriations Committee, overseeing the entire federal discretionary budget. In addition to his previous tenure as Chairman of the House Appropriations Subcommittee on Defense, he has also served as a member of the House Armed Services Committee and the House Permanent Select Committee on Intelligence. His 14 years of service on the Intelligence Committee is the longest tenure of any member in history. Throughout his service on the Appropriations Committee, Bill Young has been dedicated to improving the quality of life of the men and women who serve in the military.

Congressman Young has also been a leading advocate for increased biomedical research. During his Chairmanship of the Appropriations Committee, he successfully led the effort in Congress to double federal medical research funding over five years and has likewise led the fight for federal funding to increase immunization rates for preschoolers, improve public health programs nationwide, and pursue cures for Parkinson's and Alzheimer's Diseases. He was instrumental in founding a national registry for bone marrow donors. Now named the "C.W. Bill Young Marrow Donor Recruitment and Research Program" in his honor, the registry lists more than five million volunteer donors for patients with leukemia and other life-threatening diseases and has served as a model for similar programs throughout the world.

Throughout his career of public service, Congressman Young has been a strong advocate for the needs of Pinellas County. Among other issues, he has worked to ease congestion, attract high-tech jobs, improve health care for low-income families, protect neighboring MacDill Air Force Base, build a state of the art medical center for veterans at Bay Pines, and offset erosion on the area's beaches. Bill Young served ten years in the Florida State Senate before he was sworn into Congress in 1970.
