Education**NCSTL'S Work ... at a glance ...**

NCSTL provides comprehensive scientific, technological and legal information, which promotes justice based on sound science and technology. **The National Clearinghouse for Science, Technology and the Law** assembles relevant resources into a comprehensive "one-stop" searchable database with equal access for all.

NCSTL offers *the only free compilation of forensic resources in the world*. The NCSTL database is useful for anyone who is looking for literature or media resources on a forensic related topic. Whether you are a lawyer preparing for a case that includes scientific evidence, a scientist preparing for court testimony, or an academic doing research on a forensic topic, *the NCSTL database will be useful in tracking down relevant background reading, as well as media and educational presentations.*

What else does NCSTL provide?See www.ncstl.org

- ⇒ ***It's Evident*** - NCSTL publishes a popular quarterly newsletter which features current forensic news stories and information
- ⇒ ***News you can use*** - NCSTL highlights the most forensic news focusing in the **SPOTLIGHT** box
- ⇒ **Calendar** - NCSTL features forensic events, conferences, and seminars
- ⇒ **Forensic resources** - developed by NCSTL for educators K – 12, scientists, attorneys, technologists, and more - ***Cold Case Toolkit*** and ***Digging Up Dirt for Expert Witnesses*** are examples
- ⇒ **Education/Training** - NCSTL develops learning modules: DNA for Defense, Law 101, Capital Litigation
